

Balaji RC

Full Stack Web Developer | MERN Stack

balaji.r032004@gmail.com | +91 9751441846 | www.linkedin.com/in/balaji-radhakrishnan-99876923

PROFESSIONAL SUMMARY

Design and develop responsive, reusable web components using JavaScript (ES6+), HTML5, CSS3, Bootstrap, and React.js. Analyze and enhance existing codebases to improve functionality, performance, and maintainability. Build scalable front-end architectures, integrate REST APIs, and optimize client-side performance through efficient state management and component reuse. Experienced in responsive design, cross-browser compatibility, and performance optimization. A self-driven developer capable of working independently while effectively collaborating within cross-functional development teams.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), jQuery

Framework: React.js, Bootstrap

Backend: Node.js, Express.js

Database: MySQL, MongoDB

Version Control: Git, GitHub

Tools: VS Code

PROJECT

Title: Organic Store e-commerce website | October 2025

Technologies: HTML5, CSS3, JavaScript (ES6+), Bootstrap

Developed reusable and scalable UI components for product listings, shopping cart functionality, and navigation in alignment with design specifications. Optimized front-end performance by minimizing unnecessary DOM manipulation and enhancing JavaScript logic, reducing page load time by up to 30% and improving overall user experience. Ensured responsive design and cross-browser compatibility across multiple devices and platforms.

Title: Portfolio Website | October 2025

Technologies: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Node.js, Express.js, MongoDB

enhanced a full-stack personal portfolio using React.js, Tailwind CSS, Node.js, Express.js, and MongoDB, featuring a responsive UI, reusable components, and a functional contact form for handling user queries. Implemented smooth animations, dynamic content rendering, and performance optimizations, improving load speed and ensuring seamless user interaction. Integrated REST APIs for efficient data handling and communication.

INTERNSHIP

Pumo Technovation

MERN Stack Development | Sep 2025 – Present

improved reusable and optimized React.js front-end components aligned with UI/UX specifications, improving performance, scalability, and maintainability through efficient code design. Integrated REST APIs to ensure efficient data flow between client and server, and utilized Git and GitHub for version control, enabling effective collaboration and streamlined development workflows in an agile environment.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering

October 2021 - May 2025

JKKN College of Engineering and Technology, Namakkal.

Percentage: 75%
